

Name: _____

Date: _____

One Place for Each Object!

Cut out the paw prints with a grown-up's help. Put one paw print in each box, starting on the left. Count how many!

--	--	--	--	--

Adult Guidance:

Help your child choose a number from 1 to 5. Place that many paw-print counters in the boxes, starting on the left. Count them together. Try three different numbers. Ask, "How many boxes have paw prints? How many are empty?" You can also use blocks or other safe counting objects.
