Science Is Noticing

KindergartenScience — Observation

For the adult: Choose 2-3 familiar objects such as a spoon, leaf, toy, rock, cup, or crayon. Let the child look closely. Ask the questions below and accept spoken answers. The drawing and writing on this page are optional.

Look Closely!

Pick an object. Look carefully. Tell an adult **two things you notice**. You may draw what you see.

Object 1 Draw what you see.	I notice... 1. _____ 2. _____
Object 2 Draw what you see.	I notice... 1. _____ 2. _____

Talk Like a Scientist

What do you notice?

What makes you say that?

Remember: Scientists notice details. Two people may notice different things about the same object—and both observations can be useful.
